

HERRAMIENTAS DE BRUÑIDO BURNISHING TOOLS

HBUD-P

+ Características

- Herramienta diseñada para bruñir en tornos , superficies exteriores de formas variadas
- Punta de diamante alineada con la cara superior del mango
- Cabeza giratoria con escala graduada (Fig. 1&2)
- Cabeza provista de un sistema de resorte que regula la presión haciéndola homogénea en todas las piezas (Fig.3)
- Utilizable sobre piezas de diferentes tipos de materiales con durezas hasta 63 HRC
- Posibilidad de colocar la punta de diamante en diferentes posiciones para prolongar la vida del útil

[Fig.1]

[Fig.2]

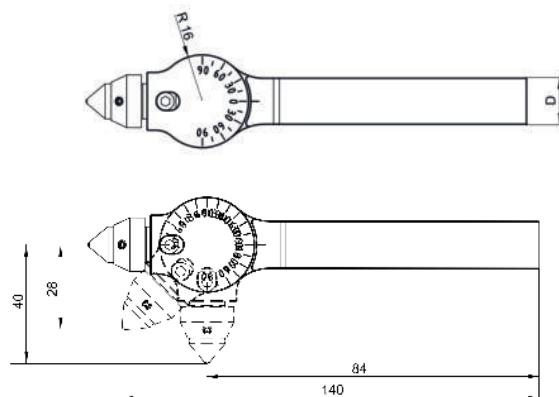

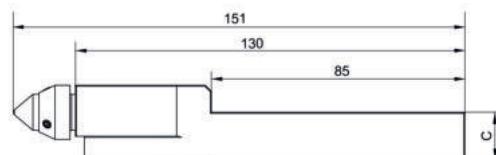

[Fig.3]

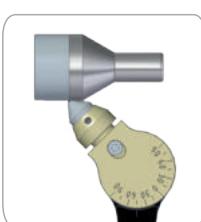

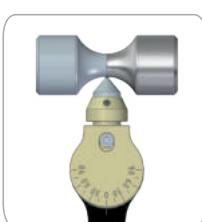

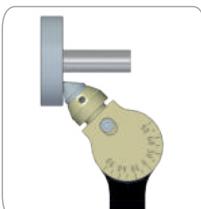

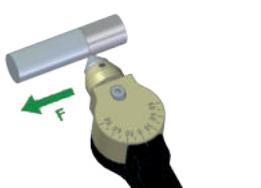

+ Features

- Tool designed for burnishing on lathes, on various profiles
- Diamond tip aligned with the top face of the shank
- Rotating head with graduated scale (Fig.1&2)
- The head is equipped with an internal spring system to regulate the pressure of the diamond tip, making it homogeneous on all parts (Fig.3)
- Can be used on workpieces made of different types of materials with hardness up to 63 HRC
- Possibility of placing the diamond tip in different positions to extend the life of the tool
